ATLANTA (Ga.) Constitution: Certainly Blaine is too active a man to sit still and allow the adherents of Guiteau to run over him.

A CLEVER imitation of the trade dollar is in circulation. The composition is iron, neatly washed or plated with a thin coating of silver. An examination will detect its bogus quality.

Mr. Richard Smith, of Aberdeen, will leave on Tuesday for Memphis, to take a position as engineer on the City of Helena, a steamer plying between that place and New Orleans.

INTERVIEWS in Chicago with representatives of leading rail mills and blast furnaces show that "while the outlook for next year is not favorable, there is no immediate cause for a panic. Most of the mills have orders to keep them working four or five months, and a few say that they have sufficient work for the first half of next year."

The impression exists in the East that Mrs. Melville, the wife of the Arctic explorer, has been a very ill-treated woman and sympathy is manifested for her in all quarters. Counsellor Heaverin, who has charge of Mrs. Melville's business, says: "I intend to strip the tinsel from this glorified hero, Melville. The recital of Mrs. Melville's wrongs to me was pathetic and heart-rending, and if one-tenth she says is true she is entitled to the sympathy of all right-thinking people. I also propose making the two physicians who certified to Mrs. Melville's insanity responsible for their unwarrantable and unlawful acts; I also propose instituting proceedings to compel Melville to contribute a larger amount to the support of his wife and family. What further action I may take I have not yet determined upon. A writ of habeas corpus, commanding Melville to produce the body of his daughter Maud in the Court of Quarter Sessions on Wednesday next will be served on him when he arrives in this city."

The commissioner of internal revenue, it is said, will probably recommend congress to reduce the internal taxation by about \$80,000,000. A Washington telegram states that he does not believe, however, that a majority of the people favor the repeal of the tax on distilled spirits and tobacco. It is probable that the commissioner in his forthcoming report, will repeat in substance the recommendation in his last report, which was, "whenever the wants of the government will allow reduction of internal taxation, my opinion is it will be wise to confine these taxes to distilled spirits, malt liquors, tobacco and its products, and to special taxes upon manufacturers and dealers in those articles, and such rates as will yield the amount of revenue necessary to be raised from these sources." As he favors a reduction of revenue to the extent of \$80,000,000, it is believed he will recommend a reduction of tax on distilled spirits, malt liquors, tobacco and special licenses, and the repeal of the other internal taxes.

Mrs. Elizabeth Carter died in Louisville, Ky., Saturday, from the effects of a dose of arsenic, taken the day before with suicidal intent.
